Primadonna is by the popular Holstein stallion Carpaccio and from Calypso II/Malteser was imported in 2005 by the stud. Primadonna is a careful, scopey mare, typical of the studs attention to detail when selecting premium mares. She is a very careful and talented mare and is currently campaigned by Jamie Coman.

Sire's Background

Primadonna's sire Carpaccio is the son of Caretino, the last Caletto II son who is still performing stud duties in Holstein. Carpaccio was the Champion of his 100 Day Test and won his class at Bundeschampionat. To date, this son of Caretino has produced the Champion stallion in 2002 (Chico's Boy) at Holsteiner approvals and many serious sporthorses. The progeny of the champion stallion Caletto II earned prize money of almost Euro 900,000 in the showjumping sport. Caretino's dam Isidor is

via Metellus a great granddaughter of the famous sire of showjumpers Manometer xx.

Dam's Background

The dam's sire Calypso II was the actual disseminator of the Cor de la Bryère blood in Hanover, which ushered in a new era in Hanoverian showjumper breeding as of 1987. His dam Tabelle was a full sister of the broodmare Salmei, who presented the World-class dressage champion Granat/Christine Stückelberger (Switzerland).

Calypso II is considered one of the most important sires of Germany. In the breeding regions of Hanover and Holstein. Calypso II presented outstanding sires and performance horses of international standing, such as Contender, Coriolan, Champ of Class, Colani, Carbid, Crazy Classic, Chasseur I and II.
