

Mare - Olinda

VOLTAIRE / LORD CALANDO / AHORN

Imported Holsteiner Mare Stamm KWPN DOB 1996

Breeder :

Owner : SOLD 2008

Leilani was imported in utero by the Stud in 1999. An important addition to the stud, Leilani has produced outstanding foals including Cat Ballou. Leilani commences her showjumping career in 2006.

MARES PEDIGREE AND BACKGROUND

Olinda is out of a Lord Calando mare. Lord Calando has one of the most impressive pedigrees in modern European breeding. His Father Lord, was one of the foundation sires of the Holsteiner breed with 62 approved sons. This number includes some of the greatest names in jumping such as Lord Z, Lavallo, Lebus, Lantaan, Lordano and Landos. Lord carried all of the important thoroughbred blood, which so heavily influenced the breed.

On his maternal side we find Perra, none other than the mother of the Great Carthago Z. So Lord Calando is Carthago's uterine brother. Calando I went to the '84 Olympics with Karsten Huck, and became one of the most important sires of mares in history, with over 180 state premium mares. Calando gives Lord Calando an almost complete bibliography of foundation sires, by carrying the blood of Cor de la Bryere.

Lord Calando truly is a breeding product of his genetics. Lord Calando has covered 528 mares over 7 years. His offspring are good looking with great movement. He should be crossed with mares who lack strength, movement, but have balanced temperaments. Because of the amount of blood on his fathers side, he has a more refining effect than perhaps his brother had.

SIRES PEDIGREE AND BACKGROUND

Olinda is by the well known KWPN stallion Voltaire out of the Lord Calando mare Lady. Voltaire was really the first of the super star performance stallions to go on and prove himself equally as important as a breeding stallion. In the competition arena, he won at the highest level, winning Nations Cup classes at Calgary, Stockholm, s'Hertogenbosch, Lanaken, Helsinki, Wiesbaden and Wembley. In 1989 he won the Grand Prix of Berlin. After a sensational performance career, Voltaire stood at Jan Greve's picturesque stud De Watermolen and started to prove that his explosive mix of the best of the French and the best of the German jumping lines, could weave a special magic.

Voltaire is by Furioso II, one of the first Selle Français stallions to come to Germany. Originally called Vertuoso, the two and a half year old French stallion was imported to Germany by the great Oldenburg breeder, Georg Vorwerk. Voltaire is out of Gogo Moeve by the great Hanoverian stallion, Gotthard. Gogo Moeve was the dam of successful competition horses Fandango R, PS Falkan and Petite Fleur. Her dam sire is the English Thoroughbred, More Magic xx, who was the sire of 1980 Moscow Olympic dressage gold medallist, MonCherie.

Out of his first crop of foals Voltaire produced the approved stallion, Concorde, who after an international jumping career with Jos Lansink and Eric van der Vleuten (including the Dutch showjumping championship in 1994) is in the process of writing his name into the history books as a breeding stallion in his own right. Voltaire is represented by a staggering 28(!) jumpers in the WBFSH standings for 2000/2001 - and is ranked 9th in the top 50 sires in the ten years from 1991 to 2000.

Jacques Verkerk of the KWPN, comments: "Voltaire produces roughly two types of horse; rather square exteriors with an articulate top-line; or big rectangular horses with a lot of bone. His progeny move with sufficient length of pace, but are a little slow and without optimum bend in hocks. The hind leg is often a little straight. Due to their nice type and good character a lot of riders can easily cope with them. They can make quite nice dressage horses for riders at rural level, although the KWPN doesn't recognize him as a producer of dressage horses.
