VETERINARY CONDITIONS

- (1) All veterinary expenses will be charged direct to the mare's owner. The mare may undergo a veterinary examination prior to breeding. If a major expense has to be incurred, the owner of the mare will be notified beforehand to verify such an expense. However, there will be no notification for routine veterinary care. Noblewood Park reserves the right to use the vet of their choice on mares resident at the Stud. Our vet is Mundaring Veterinary Clinic and we recommend you contact the vet surgery to set up a credit facility for any costs associated with the mare being at the stud or for collection and freight of chilled semen.
- (2) For mares standing at the stud for a live service the mare's owner warrants his/her mare to be free from any illness or contagious disease and must produce a **current veterinary certificate**. If in the opinion of the Stud the condition of the mare is in doubt then the Stud may obtain a veterinary report on that mare at the expense of the mare's owner.
- (3) If the mare will not breed the owner will be notified accordingly. In this case, the Service Fee will be refunded.
- (4) The owner of the mare must forward to the stud within 60 days of the last service a veterinary certificate proving either a positive or negative pregnancy test and the service fee will be refunded.
- (5) The mare must be accompanied by a clean swab certificate done no earlier than six weeks prior to service.
- (6) The mare owner will pay for all associated costs for chilled semen. These include collection costs, transport and freight costs. Neither Noblewood Park Stud or any associated entity or Mundaring Veterinary Clinic will accept responsibility for the safe and on time delivery of the chilled semen.
- (7) A Declaration for the attending vet to sign will be sent with the chilled semen. This will include the full details of the mare that was inseminated. This form must be returned to Noblewood Park Stud before service certificates will be issued.
