

Mare - Claudia

COLLINS / CALETTO I / CAPITOL I

Australian Holsteiner Mare DOB 2003 Stamm 8813

Breeder: Noblewood Park Stud, Gidgegannup

Owner: Noblewood Park Stud, Gidgegannup

CLAUDIA is out of the mare CALVARA who is the FULL sister to CALVARO Z who was ridden by three of the Worlds Greatest show jumpers Jos Lansink, John and Michael Whitaker.

DAM PEDIGREE AND BACKGROUND

Czarina's dam Calvara is the full sister to Calvaro Z and is very much worthy of adding to the list of World Class Stallions. Calvaro started his stud career late, however, in his first season whilst standing at Zangershiede, he produced 232 foals and in his second season 246. Calvaro was later approved on behalf of the Scottish Sports horse and became a popular sire with Scottish Breeders with a number of his foals topping the grading results and more recently his daughter "Hazel" (Calvaro x Ramiro Z) placing third in the Scottish Sports Horse Loose Jumping Championships in 2009. His progeny are now very much in demand across Europe frequently selected for the PSI and other elite auctions but was very much under utilised by British Breeders as quickly gained a reputation for not always producing the most attractive of progeny and often not with the greatest of hind legs. Nonetheless his progeny often possess the most tremendous of canters and a power to their jump that is frequently unrivalled currently placing Calvaro in 10th position in the WBFSH show jumping sire rankings with an exceptionally high ratio of his sons and daughters consistently jumping the 1.60m tracks.

Czarina's grand dam Rixa, is a daughter of another top-class sire Capitol I (Capitano). Capitol I has a large number of successful progeny in international showjumping. Particularly noteworthy in his pedigree is Retina (by Ramzes) with whom Fritz Thiedemann achieved great successes decades ago. One of his other accomplished sons in 2000 was "Cento" who won the Aachen Grand Prix, shared team gold in Sydney and only missed an individual medal by one rail.

If we follow Czarina's dam's lineage back through we find the influential Farnese son "Fantus" to a beautifully bred Hanoverian female line that carries the blood of Sesam II and Goldfisch II another great influential blood line in Hanoverian performance.

Czarina's grandsire, Caletto 1, was in previous years ranked fifth. Her mother Deka by Consul herself made breeding history as mother of five approved sons. Caletto I was one of the most successful horses in sport, ridden by Michael Rupling, Caletto 1 jumped at international level with his greatest achievement winning the individual bronze at the 1982 Dublin World Championships. After his show jumping career lasting five years, the son of Cor de la Bryere had won more than 100 000 D-Mark - more than any other German breeding stallion before him at that time. The most successful son of Caletto I until Calvaro FCS, was Cantus, the father of Calvaro 005 ridden by Willi Melliger.

SIRE PEDIGREE AND BACKGROUND

Czarina's sire is Collins, a beautiful dark brown jumping stallion born in 1995 in Germany and imported as a three year old in 1998 by the Stud. In April 2000 Collins began his jumping career in Australia. During his inaugural year, and at the age of five years, he firmly made his mark on the local show-jumping scene jumping and winning classes at 1.35m. He campaigned successfully in the Eastern States of Australia in the latter part of 2001 winning many futurities and mini Grand Prix's.

Collins is by the Holsteiner stallion Calando I (by Cor de la Bryère) out of a Caletto I mare (by Cor de la Bryère) giving him a double cross with the famous Holsteiner foundation sire. He is typical of the new type of sport horse currently favoured. He is a well-balanced stallion of 16.3 hands with generous strides and a natural elastic movement. He has a lovely head carried on a beautiful neck, producing elegance, lightness and self-carriage.

Collins has a willing temperament, with good character and an eagerness to please. He is an athletic and expressive riding horse and has enormous ability. Collins oldest foals are now rising six and he has strongly stamped them with his scope and careful technique.
