

# Reference Sires - Indoctro

Here is yet another successful cross of the two Holstein C lines – combining the power of Capitol I and the carefulness of Cor de la Bryère. Indoctro however is more than just an impressive pedigree, he was an international jumping star with Ulrich Kirchhoff before settling down to a stellar breeding career at the famed VDL stud.

Indoctro is a son of the famous show jumper progenitor Capitol, who is by Capitano, son of Cottage Son xx. Both Capitol's sire and dam have reputed jumping lineages. Capitol also produced many approved sons, such as Carolus, Corthago and Calato, in addition to the internationally victorious jumpers Corso Cincinattie and Concorde.

The dam of Indoctro is a daughter of Caletto II, who is a full brother to the international jumper Caletto I. His half-brother Consales out of the same dam also moved in international show jumping circles. Caletto II is sire of the popular stallion in Holstein Caretino and the stallion Calgary, who twice won the Bundeschampionat (German Championship). Also Olympic Champion Show jumper Classic Touch is a daughter of Caletto II. Indoctro's dam further produced a mare that scored 10 for jumping at her testing.

Further in his pedigree we find Calypso I, of which 4 full brothers are also approved, just like Calypso I all of them regular sires of show jumpers and dressage performers. The dressage horse Granat from Christine Stuckelberger is out of a full sister of the dam of Calypso I. The most famous approved son of Calypso is Caprilli. Indoctro's pedigree includes many famous performance horses. He was Champion of his year at the performance test in 1993 and was given a 9 for no less than five of the test components, of which particularly the jumping components are illustrative of his value of this superstar. His canter received an 8. Indoctro is a luxury stallion, clearly showing his breeding and displaying his extraordinary jumping manners.
